Here at Da Vinci School for Science and the Arts every grade is required to be in a lunch club which occurs either before their lunch time or after their lunch time. On Monday, Wednesday and Fridays I work with the juniors and on Tuesdays and Thursdays I work with the seniors. During this time the students are using a program called Naviance where they are preparing to take either the SAT or ACT test as well as preparing to take any AP exam at the end of the school year. With the seniors, I am also working with them on college applications, how to apply for financial aid, applying for scholarships, resume building, job skills and interest inventories, as well as creating a portfolio. During this time, we also discuss community service hours and internship hours which are required for graduation. The lunch club period is for 30 minutes and we are able to use this time to prepare our students for graduation and college.
