Ramon E. Rivera – T-STEM Program Coordinator

PARENT/STUDENT COMMITMENT

We understand that students who apply to attend Parkland High School for the Science, Technology, Engineering and Mathematics Academy do so as an optional school program.

We recognize that the standards for the T-STEM Academy are higher levels of instruction than those required by other schools in this area.

We understand and agree that as students of the T-STEM Academy we will adhere to the same discipline policy, dress code policy, code of conduct, academic progress and regular attendance expected of **all** Parkland High School students.

We understand that admission to the PHS Magnet program is competitive and admission will be based on the application as well as satisfactory achievement, attendance and citizenship attained at the middle school.

We further understand and recognize that acceptance into the T-STEM Academy **is a privilege and not a Right**, therefore, we agree to maintain high levels of participation in instruction.
